[@sergeyflaer](#) [Cases, works, recommendations here](#)

Product Designer with experience in B2B and B2C products

I specialize in complex systems, design systems, and DesignOps: building design processes and improving interaction between teams

I improve product metrics through UX (reducing support cost, increasing conversion, optimizing user flows)

I have worked with B2B, SaaS, 1C, e-commerce, and government products

Experience

Design System Architect

From May 2026

- Shifted designers' perception of the design system from restrictive to supportive.
- Refactored complex foundational product components.
- Maintained and evolved B2C and B2B component libraries.
- Increased Figma component coverage across product designs.
- Redefined the design system's tone of voice and developed its strategy as an internal product.

Senior Product Designer at 1C (as part of collaboration with aic)

February 2025 - March 2026

- Conducted a review of over 500 forms across various libraries
- Reduced time spent on small forms from 14 to 11 seconds
- Redesigned the entire 8.5 design system taking into account the redesign (MVP)

Senior Product Designer at ToYou (KSA)

August 2023 - February 2025

- Designed a new landing page with a focus on data-driven SEO
- Reduced the number of manual tech support responses
- Reduced the average cost of tech support inquiries from 1.3\$ to 0.2\$
- Implemented allergens and nutritional info in the catalog
- Added many useful features for driver-couriers, such as auto-earnings withdrawal, order heatmap, and more.

Senior Product Designer at Growth.pet

April 2023 - August 2023

- Improved the admin flow for grooming salon administrators
- Added a smart booking system for groomers, bans, and vaccinations
- Designed a cross-platform messenger
- Implemented a tagging approach to working with clients across the system

Product Designer at Salebot

November 2022 - April 2023

- Conducted over 120 user interviews
- Reduced the number of "empty" clicks in the constructor by 41%
- Designed a constructor for educational products from scratch (infobusiness)

Product Designer at the Government of Moscow Region

February 2021 - November 2022

- Led the refinement of the EARSUZ Portal system for citizens
- Increased the number of tender applications through our aggregator by 2.3 times
- Improved internal metrics (tech support inquiries, erroneous submissions, rejections)

Tools

Design	Web	Project management	Experiments
Figma	Framer	Atlassian	Krea.ai
Adobe CC	Tilda	Obsidian	Claude

Hobby

I do powerlifting, hold the MCS (Master of Sports Candidate) title in deadlift and bench press (soft equipment). Sports developed systemic thinking, planning skills, discipline, and focus on long-term results — I apply this in working on complex products
